

Steelcase® Roam™ Take Teamwork Anywhere.

Today's modern workplace demands new ways to optimize creative thinking and collaboration. That's why Steelcase and Microsoft partnered to provide a solution for teamwork without boundaries. Steelcase Roam is a system of mobile stands and easy-to-install wall mounts that was co-developed with Microsoft for the new Surface Hub 2, giving teams the freedom to collaborate anywhere.

Steelcase Roam is the only mobile stand with an APC™ Charge Mobile Battery—allowing you to totally unplug in a versatile team environment. The flow of ideas doesn't have to end when your scheduled meeting does—the patented design and total flexibility of Roam encourage teamwork to happen wherever ideas do: anytime, anywhere, anyway.

REASONS TO BUY

Co-developed with Microsoft

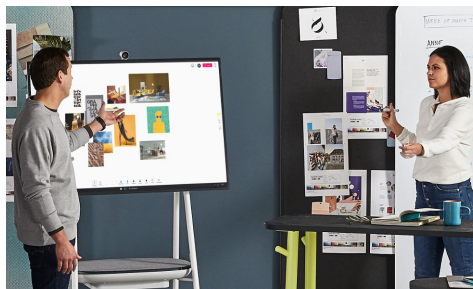

Roam is a patented design exclusively developed for the Surface Hub 2, and is officially licensed as a Designed for Microsoft Surface product. Extensive testing has been completed with thermal, sound and external vibrations to meet Microsoft Surface standards.

Future-focused

Roam products will support the Surface Hub 2X, an evolution of the Surface Hub 2S with horizontal to vertical rotation and tiling options.

Thoughtful Integration

Roam perfectly complements Surface Hub 2 for collaboration anywhere, with a storage tray that can hold an optional APC™ Charge Mobile Battery and a smart cord management system for untethered use.

Innovative Mobility

The Steelcase Roam mobile stand moves easily on smooth-rolling casters for on-the-go transitions throughout any space, from a conference room to private office, casual spaces and beyond.

Approachable Design

With a minimal design, Roam integrates seamlessly into any workspace. The stand is a familiar easel-style design, making it stylish and approachable for collaboration anywhere.

FREQUENTLY ASKED QUESTIONS

Who is Steelcase?

Steelcase is an innovative industry leader creating architecture, furniture and technology products and services designed to help people reach their full potential.

Why did Microsoft partner with Steelcase?

Microsoft joined forces with Steelcase to explore the future of work. The partnership is built on a shared commitment to put people at the center of how place and technology intersect and empower individuals and teams to do their best work.

There are a lot of stands, what makes Roam unique?

Roam is an official Designed for Microsoft product and has been exclusively developed for the Surface Hub 2 for collaboration anywhere. As the only mobile stand with a built-in APC™ Charge Mobile Battery and a smart cord management system, Roam allows you to truly unplug.

What makes it mobile?

With smooth-rolling casters, a smart cord management system and unique APC™ Charge Mobile Battery, Roam moves from space to space easily, allowing teams to break away from traditionally limited collaborative environments so they can work together how they like: easily, actively and spontaneously.

How easy is it to set up and install?

The Steelcase Roam mobile stand has been designed for an uncomplicated, quick setup. All you need is a screwdriver. The rest is provided in easy-to-use color-coded instructions. Steelcase Roam wall mount is specifically designed for easy installation on drywall, with no additional support brackets needed.

Are there demo units available?

Yes, you can buy Roam mobile stand demo units through your distributor.

Does Roam automatically ship with Surface Hub 2?

No. To ensure a seamless customer experience, always attach a Roam mobile stand or wall mount to every Surface Hub 2 quote.

Is special pricing available for large-volume opportunities?

Yes, you can apply for special pricing through your distribution partner.

Is there a warranty?

Yes, Roam products fall under the Steelcase 12-year limited lifetime warranty, available at steelcase.com/roam-channel-resources/.
